

JULY 10 - 5:30pm

MISSION HILL ARTS FESTIVAL

NICHOLAS MILKOVICH is a sculptor and engineer from the Chicago Suburbs. He is currently an MFA candidate in 3D Fine Arts at Massachusetts College of Art and Design.

He draws inspiration from artists who work with rough and reused materials, such as Phyllida Barlow and El Anatsui.

His personal practice reflects the concept of the artifact. Whether a tool from an ancient society or a long forgotten religious relic, these objects command a sense of mystery through their material and age. In his own words: *"I am interested in utilizing these qualities through manipulation of raw materials and implementing them."*
